NEW EXERCISE.

WHEN a Battalion is order'd under Arms, each Company is first to assemble at its Captain's Quarters, to be drawn up into a single Rank, divided into 3 equal Parts;

The { Tallest } Men { Right,
 { Next Size } on the { Left,
 { Lowest in the Centre Division

The Officers to take care that they are exactly sized, well and uniformly dressed; their Arms clean, and unloaded; the Locks in particular in good Order, and well flinted; that their Bayonets fix well; their Swords clean, their Accoutrements well fixed, and that they have the Number of Cartridges, with or without Ball, as ordered.

N. B. When Companies are thus formed in a single Rank or Haye;

The { Captains } Post is { Right,
 { Lieutenants } on the { Left,
 { Ensign's is in the } Centre,

each at 4 Paces or 8 Feet before the Men, every PACE reckoned now 2 Feet, instead of 3 as FORMERLY; the Serjeant's on the Right of all in a Line with the Men, the Corporals next to them, and then the Drummers.

This Inspection over, the Company is to be formed into Ranks,

The Division on the { Right } making the { Front }
 { Left } { Rear } Rank.
 And the other { Centre }

The Ranks are to be 12 Feet, or 6 Paces, distant from each other; the Corporals now fall into the Ranks.

Each Company thus formed, is to be divided into 2 or 4 Divisions, and marched by its respective Officers to the general Parade or Rendezvous of the Regiment, the Captain leading the first Division the Ensign the second, and the Lieutenant bringing up the Rear. If it marches in 4 Divisions, the Captain leads the first, and the Ensign the third; the eldest Serjeant on the Right of the front Rank of the first Division, the second Serjeant on the Left of the front Rank of the last Division, and the youngest on the Right of the front Rank of the Division which the Ensign leads; the Drummers between the front and centre Rank of the first Division; the Pioneer, with his Firelock rested on his Left-arm, marches at about 12 Paces before the Captain:

The Ranks { Open } Order { 12 } Feet { 6 } Paces
 if at { Close } are { 2 } or { 1 } asunder

At the general Parade or Rendezvous, the eldest Company draw up on the Right, the next on the Left, the 3d on the Left of the 1st, the 4th on the Right of the 2d, and so on to the youngest in the Centre, leaving an Interval of 2 Paces or 4 Feet between every Company, the Grenadier Company draws up on the Right of all, at 10 Paces from the Right of the Colonel's Company

So soon as each Company wheels, in order to come up into its Ground, the Drummers move out of the Ranks, and (beating the Troop) march forward about 12 Paces beyond where the front Rank

is to draw up; then face to the Right-about, continuing to beat till the Officers are at their Posts, when they are to cease: The Pioneer advances 2 Paces beyond the Drummers, and face to the Right-about also.

So soon as the Officers come up to the Front, they are to face to the Right-about, the Captain taking Post opposite to the Centre of his Company (at 8 Feet or 4 Paces distant from the front Rank) the Lieutenant takes Post on the Right, and the Ensign on the Left of the Comp.

After the Officers have seen that the half Files cover well, and that the Ranks are straight (the Captain giving Notice to his Subalterns) they all come to the Left about together.

The Serjeants (when the Companies move up) quit the Flanks and form a Rank in the Rear, at 4 Paces distant from the Men, ordering their Halberts; the youngest Serjeant takes out the odd Men (if there should be any) and places them before him, till they are disposed of as hereafter mentioned.

Each Captain is to have a Field-Return of his Company, ready to give the Adjutant, specifying the

Number {	Names of commissioned	} Officers {	present or absent,
	of Non-commission'd		and Men under Arms;
	Upon Duty and where;		
	Sick and Prisoners;		
	Absent with or without Leave;		
			Wanting to complete to the Establishment.

All the Companies being come up, the Serjeant-Major in the Rear forms half Files of the odd Men, and draws them up in the Intervals left between the Companies: The Adjutant is then to make each Company (one after another) face to the Right and join, at this Time receiving the Field-Return from each Captain.

The Companies now closed, the Major orders the Officers to take Post in Battalion, which they do by recovering their Arms together, facing to the Right or Left at the same Time; the Serjeants at the same Time recover their Halberts, facing to the Right and Left outwards; at which Time all the Pioneers face to the Left on their Left-heels, as do Half the Drummers; the other Half facing to the Right, on their Right-heels (except 2 who are to be orderly, and they face to the Right about)

On the Word MARCH, the Officers stepping off with their Left-feet, those who go to the Left going on the Outside, march and post themselves on the Right and Left according to Seniority, 6 Serjeants come up in 2 half Files on the Right of the Battalion, and 6 on the Left, dressing with the Ranks; the other Serjeants divide their Ground equally in the Rear, which the Serjeant-Major is to attend to; the eldest Grenadier-Serjeant comes up on the Right of the front Rank of his Company, the next eldest on the Left of the front Rank, and the youngest remains behind the Centre of the rear Rank: The Pioneers, having joined the Pioneer of the Colonel's Company, march till they are clear of the Right of the Grenadiers; then facing together

to the Right, march till they dress with the front Rank; the Drummers of the Right, move on till they have joined those of the Colonel's Company; then, having marched clear of the Right of that Company, face to the Right and march till they are in a Line with the front Rank, and on the Outside of the Serjeants: The Drummers of the Left, having joined before the Lieutenant-Colonel's Company, proceed to the Left till they are clear of the Serjeants; then, facing to the Left, march till they dress with the front Rank: The 2 orderly Drummers march and post themselves upon the Right-hand of the Major; the Grenadier-Drummers march to the Right of their own Company.

On the Word **HALT**, all the Officers, Serjeants, Drummers and Pioneers, face to the Front, the Officers and Serjeants ordering their Arms at the same Time.

Then the Colours to be sent for in the usual Form.

Whilst the Escorte is gone for the Colours, the Adjutant in the Front, and Serjeant-Major in the Rear, tell off the Battalion into front and rear half Files; into 16 Platoons, 8 Sub-divisions, and 4 grand Divisions; they also acquaint the Officers and Serjeants, what Platoons, &c. each of them belong to.

After the Ensigns with the Colours have taken their Post, and the Escorte of Grenadiers have returned their Bayonets, and shouldered, the Major will form the Battalion 6 deep, by making the even or rear half Files to face to the Right, and march 18 Paces to the Rear, the half Files of the Serjeants recover their Halberts at the same Time; then step off with the Right-feet when the half Files do, which they cover, coming about also when they do, and ordering their Halberts. After the Major has made them halt, the Adjutant is to assist him in going from the Right to the Left of the Battalion, dressing most exactly every Rank and every File, and seeing that the Officers, as well as the Serjeants, are always in a Line with the Files.

The Battalion thus formed and dressed, the Colonel takes his Post 6 Paces before the Centre of the Line of Officers: The Lieutenant-Colonel's Post is 2 Paces before the Line of Officers, and a little to the Left of the Colonel (when he is present) or just before the Centre when he is absent.

Before the General Officer appears, the Major is to order the Battalion,

N. B. If it be only a Major-General who reviews, he is to be received without fixing the Bayonets.

The General Officer being within 20 Yards of the Right of the Battalion, the Major orders, **Present your Arms**; and takes his Post on the Right of the Battalion, as the Adjutant does on the Left, dressing with the front Rank, and saluting the General as he passes with their Swords: So soon as the Major has saluted, he posts himself at about a Hundred Yards before the Centre of the Battalion.

After the General has gone round the Battalion, and (proceeding to place

place himself opposite to the Centre) is at about 20 Paces before the front Rank, the Major is to order the Battalion to **SHOULDER**.

The General having placed himself opposite to the Centre of the Battalion, the Major then orders the Battalion to Present their Arms: All the Drummers beat the March so soon as the Men come down to the Rest; the Major then raising his Sword and dropping the Point, gives the Signal for all the Officers to salute together, and the Ensigns drop the Colours; the whole having pulled off their Hats together, are to remain so till the Major raises the Point of his Sword, on which the Officers are all to put on their Hats at the same time.

N. B. If it be a Major-General who reviews (and of course was received without Bayonets being fixed) the Major, after he has taken his Post in the Front of the Battalion, is to order the Bayonets to be fixed, then to present their Arms, and salute as above; this being a Part of the Exercise (and no Compliment to him) after which he is to order the Battalion,

1 Rest your
Firelock.

3

Join your Right-hand, by seizing the Firelock behind the Lock, at the same time turning it with the Left-hand so as to bring the Lock upwards, the Piece being almost right up and down, tell 1, 2; come to the Recover by raising the Firelock from your Shoulder with your Right-hand, at the same time turning your Barrel inwards, and seizing it with the Left-hand just above the Feather-spring, that Elbow close, the Hammer about the Height of, and just before the Right-Breast, the Right-thumb upon the Cock, tell 1, 2; and turning upon both Heels so as the Right-toe may point to the Right, and the Left-toe a little to the Front, come down to the Rest, the Cock at the Waist-belt, the Left-arm close to and directly across the Stomach, the Right-elbow turned towards the Front, the Butt of the Firelock against the Middle of the Right-thigh, the Muzzle pointing very little forwards, the Stock in the Left-hand, the Right-thumb under the Cock, the Knuckle of the Fore-finger under the Guard.

2. Order
your Fire-
lock.

3

Quitting the Firelock with the Left-hand, seize it immediately as high as your Shoulder with a brisk Motion, at the same Time bringing the Firelock perpendicular, the Butt being near to and on the Outside of the Right-thigh, tell 1, 2; and let go the Right-hand, sinking the Firelock with the Left, at the same Time seize your Firelock briskly with your Right-hand near the Muzzle, the Hand the Height of the Chin, the Thumb upwards, tell 1, 2; and turning your Toes to their proper Front, quit the Firelock with the Left-hand, bringing down the Butt-end to the Ground even with your Toe, at the Outside of your Right-foot, the Firelock upright, your Right-arm hanging, from the Hand to the Elbow, by the Side of the Firelock, the Left-hand hanging by the Left-side, both Shoulders square to the Front.

41 Raise your Right-foot, and making a Half-face to the Right, place it against the flat Side of the Butt, at the same time turning the Barrel of the Firelock towards your Body, tell 1, 2 ; and step directly forwards with your Left-foot, quit the Fire-lock with your Right-hand, and seize it immediately at the Middle of the Barrel, your Left-hand hanging down, and at the same time bring down your Right-knee upon the Firelock, looking up ; both Hands, the Left-knee, and Heel in a Line, tell 1, 2 ; and quitting the Firelock with the Right-hand, raise yourself again, stepping back with your Left-foot, and keeping your Body half-faced to the Right, tell 1, 2 ; and turn your Right-foot on the Heel over the Butt-end, bring your Body to its proper Front, letting both Arms hang down by your Sides.

4. Take
up your
Firelock.

4 Turn your Right-foot upon the Heel over the Butt of the Firelock, and set it down again, making a Half-face to the Right, at the same time extend your Right-arm a little to the Right, the Palm towards the Front, tell 1, 2 ; and step forwards with the Left-foot along the Firelock ; at the same time take hold of it with your Right-hand, about the Middle of the Barrel, with an out-stretch'd Arm, stiff Body, tell 1, 2 ; raise yourself and the Firelock, bringing back the Left-foot, then tell 1, 2 ; and lift up your Right-foot, setting it at the Inside of the Butt, at the same time quitting the Middle of the Firelock with the Right-hand, and seizing it again briskly with the same hand, as high as the Muzzle, turning the Barrel towards your Right-shoulder, being in the Posture directed in Explanation 2.

5. Rest
your Fire-
lock.

3 Quitting the Firelock with the Right-hand, seize it again briskly with the same Hand, as low as you can without Constraint, tell 1, 2 ; and raise your Firelock with the Right-hand, seizing it at the same time with the Left-hand, just above the Feather-spring, the Left-arm across the Stomach, tell 1, 2 ; quit the Firelock, with the Right-hand, and take hold of it behind the Lock, at the same time turning upon both Heels, the Right-toe pointing to the Right, the Firelock and Body being in the Attitude as in Explanation 1,

11. Rest on your Arms.	3	With your Right-hand sink your Firelock close to your Body, as low as you can without Constraint, seizing it at the same time with your Left, the Height of your Chin, tell 1, 2; sink your Firelock with the Left-hand, seizing it at the Muzzle with the Right, tell 1, 2; and bring the Butt to the Ground, at the same time bringing up the Left-hand close under the Right, the Elbows down and Firelock close to your Body.
12. Draw your Bayonet.	2	Push forward the Muzzle of your Firelock with the Left-hand, at the same time seize the Bayonet with your Right-hand, tell 1, 2, and draw it out briskly; and turning the Point upwards, bring the Socket just above the Muzzle of the Piece, the Bayonet upright, the Elbow down.
13. Fix your Bayonet.	3	Push down the Socket of the Bayonet as far as the Notch will permit, tell 1, 2; and turning it from you, fix it, tell 1, 2; and bring down the Right-hand upon the Back of the Left.
14. Poise your Bayonet.	3	Raise your Firelock with your Right-hand as high as your Forehead, at the same time seizing it with the Left-hand, as low down as possible without Constraint, tell 1, 2; raise it with the Left-hand, and at the same time quitting it with the Right; seize it again with that Hand below the Lock, the Left-hand at the Feather-spring, tell 1, 2; and quitting the Left-hand, let it fall along the Left-side, remaining in the Posture directed Explanation 10.
15. Shoulder.	2	Bring the Firelock with the Right-hand opposite to the Hollow of the Left-shoulder, turning the Barrel outwards, and placing the Butt in the Left-hand, as in Explanation 9, tell 1, 2; and let it fall on the Left-shoulder, as in said Explanation
16. Present your Arms	3	As in Explanation 1.
17. Face to the Right.	3	Bring the Firelock to the Recover, at the same time place the Right-heel 4 Inches behind the Left, the Right-toe pointing to the Right, tell 1, 2; and face upon both Heels to the Right, tell 1, 2; and come down to the Rest, placing the Feet as directed in that Attitude.
18. To the Right.	3	As the foregoing.
19. To Right abt	3	As the foregoing, only facing upon both Heels to the Right about.

20. To the Left. 3 Bring the Firelock to the Recover; at the same time bring up the Right-heel, to the Ball of the Left-foot, the Right-toe pointing to the Right, tell 1, 2; and face upon both Heels to the Left, tell 1, 2; and come down to the Rest as before.
21. To the Left. 3 As the preceding.
22. To the Left about 3 As the preceding, only that you face upon both Heels to the Left-about.
23. Charge your Bayonet. 1 Step forward about 18 Inches with the Left-foot, bending the Left-knee; and at the same time seizing the Butt with the Right-hand (placing the Plate full in the Palm of that Hand) bring down the Muzzle so as the Firelock may rest on the Left-arm, almost level and as high as your Breast, the Left-elbow turned out towards the Front, the Fingers and Thumb towards the Lock.
24. Rest your Bayonet on the Left-arm. 3 Fall back with your Left-foot to its proper Place, at the same time seizing the Stock with your Right-hand; and bringing up the Muzzle, come to the Recover, tell 1, 2; bringing the Firelock directly before you, turn the Lock from you, the Piece perpendicular, tell 1, 2; and let go your Left-hand, sink the Firelock, and at the same time seize the Cock and Steel with your Left-hand, the Cock lying on your Middle-finger, and the lower Joint of your Thumb on the Steel; keep both Arms as low as possible without Constraint, the Butt between your Thighs, and the Bayonet pointing exactly to the Left, as far from your Shoulder as the Situation of both your Arms and the Butt will permit.
25. Rest your Bayonet. 3 Quitting the Firelock with the Left-hand, seize the Stock just below the Tail-pipe, the Thumb inwards, tell 1, 2; bring the Firelock to the Recover, tell 1, 2; and come down to the Rest.
26. Shoulder. 2 Turning upon both Heels, bring your Feet to the proper Front, and bring up your Firelock briskly with both Hands over-against your Left-shoulder, at the same time placing the Left-hand under the Butt, as in the 2d Motion, Explanation 9, tell 1, 2, and come to the Shoulder, as in said Explanation.
- 2d Caution. Take Care to perform the Platoon Exercise, or a Ruffle on the Drum.
27. Rear half Files to the Left; double your Front 2 The Officers in the Rear, and the Serjeants on the Flanks, recover their Esopontons and Halberts in 2 Motions.
28. March. 20 The 3 rear Ranks, and the Officers, step forward at once with their Left-feet, and make 18 ordinary Paces, of 2 Feet each, to the Front, counting 1, 2, between each

- 21 1st, Join your Right-hand to your Firelock, tell 1, 2, &.
- 1 2d, Recover your Firelock, as in Explanation 1, tell 1, 2, &.
- 2 3d, Open your Pans, stepping back with your Right-foot 4 Inches behind the Left-heel, and facing full to the Right, the Left-hand half way between the Swell and Feather-spring, bring back the Butt of the Firelock, the Lock just below the Right-breast, the Left-arm pressed against the Body, so as to support the Piece (the Muzzle of which is to be raised) as high as the Man's Head in the Rank before you, at the same time placing the Ball of your Right-thumb behind the Hammer, the Finger shut, tell 1, 2; force it back, the Elbows down, tell 1, 2, &.
- 1 4th, Handle your Cartridge; bringing down your Right-hand to your Pouch, taking out a Cartridge with your two Fore-fingers and Thumb, the Thumb towards the Hip, and bring it up to your Mouth, the Elbow a little turned up, tell 1, 2, &.
- 1 5th, Open your Cartridge, by biting off the Top of your Cartridge-Paper, so as to come to the Powder; and placing instantly your Thumb upon the Mouth of the Cartridge, bring it opposite to, and just above the Pan, the Cartridge perpendicular, tell 1, 2, &.
- 2 6th, Prime, by placing the Thumb on the Edge of the Pan; and turning up your Hand, shake carefully some of the Powder in it; covering again immediately the Mouth of the Cartridge with the Thumb, tell 1, 2; and place the 2 last Fingers behind the Hammer, the Cartridge being upright, tell 1, 2.
- 2 7th, Shut your Pan by a short and quick Motion with your 2 last Fingers, tell 1, 2, and pushing down the Butt, cast back the Muzzle of your Firelock, catching it in the Hollow of the Right-hand, letting the Firelock slip through the Left-hand, till it comes to the Swell near the Tail-pipe, pressing the Left-hand against the Waistband, the Butt opposite to the Left-toe; the Piece in turning must be kept close to the Body, the Cartridge (still cover'd with the Thumb) close to the Muzzle, in a Line with the Barrel, the Right-elbow turned down, tell 1, 2, &.

2 8th. Load with Cartridge, by putting it into the Barrel, and shaking out the Powder, push the Ball in to the Muzzle with the Fore-finger, then tell 1, 2, and seize immediately the Butt-end of the Rammer with your Thumb and Forefinger, the Thumb upwards, the other Fingers clinched, tell 1, 2, &.

3 9th, Draw your Rammer as far as you can, catching it instantly with your Right-hand, the Thumb turned downwards, tell 1, 2, and clear it of the Pipes, turning it immediately, and placing the Butt-end of it against your Sword-belt, shorten it within 3 Inches of the Butt-end, by slipping down your Hand, the Rammer in the same Direction as the Barrel, tell 1, 2, and bring the Butt-end of it into the Muzzle upon the Cartridge, the Elbow close, tell 1. 2, &.

3 10th, Ram down your Cartridge; seize the Rammer in the Middle, drive it down with good Force, catching it quickly afterwards at the Muzzle, the Thumb turned downwards, and recovering it half-way, tell 1, 2, and draw it entirely out of the Barrel, turning it, and placing the small End against your Sword-belt, shorten it by slipping down your Hand within 12 Inches of the End, tell 1, 2, and bring the small End into the 1st Pipe, conducting it down with the Fingers and Thumb through the 2d Pipe, the Finger and Thumb pointing upwards, then tell 1, 2, &.

1 11th, Return your Rammer, by placing your Fore-finger on the Butt of the Rammer, with a quick and strong Motion force it quite down; at the same time raise the Firelock with the Left-hand, bringing immediately the Right-hand under the Lock, the Left-hand at this Time slipping down to the Feather-spring, the Cock at the Height of the Waistband, tell 1, 2, &.

2 12th, Shoulder, by facing to the Left, and bringing up your Right-heel within 4 Inches of the Left; at the same time bring the Firelock close and short about, opposite the Left-shoulder, the Barrel outwards, and placing the Butt in the Left-hand close to the Hip, tell 1, 2, and drawing the Elbows briskly back, bring the Piece to the Left-shoulder, throwing back the Right-hand, as in Explanation 9.

N. B. The firing quick depends upon the quick loading, and that chiefly upon the Dexterity of drawing and returning the Rammer; that Part, therefore, of the Exercise requires great Practice and Attention.

8. Halt. 3 The Ranks who marched bring their Right-feet opposite to their Left-toe, and go to the Left-about, as in Expl. 22; the Officers and Serjeants order their Arms in 3 Motions, at the same time that they face.
49. Shut your Pan. 6 Half-cock the Firelock, by straining the Tumbler to the half-bent with your Right-thumb, bringing down your Right elbow, tell, 1, 2, and bring down your Firelock as when you handled your Cartridge, tell 1, 2, and take the Wiping-cloth out of your Pouch, bringing it up to the Pan, tell 1, 2; clean the Pan, and bring your Fingers behind the Hammer, tell 1, 2. and shut the Pan as when you held the Cartridge, tell 1, 2, and cast back the Muzzle as if to charge.
50. Clean your Bayonet. 2 Clean your Bayonet with your Wiping-cloth, and returning the Cloth into your Pouch, tell 1, 2, bring the Firelock upright, raising it with your Left-hand, at the same time bringing your Right-hand under the Lock, as in Expl. 29.
- 51 Shoulder. 2 As in Explanation 29.
52. Rear half-files, as you were. 2 The Officers in the Rear, and the Rear Half-files, face to the Right on their Left-heels, in 2 Motions; the Officers and the Serjeants of the Rear Half-files, recovering their Arms at the same time.
53. March 18 They proceed to their former Distance, making the last Pace with their Left-feet.
54. Halt. 3 They all come to the Left-about in 3 Motions, as in Expl. 48; The Officers and Serjeants ordering their Arms at the 1st and last Motions.
55. Front half-files to the Right; double yr Rear. 3 They go to the Right-about in 3 Motions, the Serjeants upon the Flanks recovering their Halberts at the 1st and last Motions; the Pioneers, who had stood fast till now, go to the Right-about, and come about again with the Front-half-files.
56. March 18 They march 18 Paces, inclining to the Left, till they are opposite to the Intervals; and double the Rear-half-files, upon the Right, facing full to the Left of the Battalion.
57. Halt. 2 Place the Right-heel 4 Inches behind the Left, tell 1, 2, and face upon both Heels to the Front, the Serjeants order their Halberts at the same time.
58. Front hlf-files as you were. 2 The Serjeants recover their Arms.
59. March 20 They proceed to the former Ground in 18 Paces, the Serjeants having counted 1, 2, order their Arms in 2 Motions.

N. B. The Pioneers march at the same time that the Front-half-files do.

- Officers recover your Arms or a Flam.** 3 *3d Caution. To the Officers, or a Roll upon the Drum.*
All the Officers and Serjeants recover their Arms in 2 Motions; the Serjeants in the Front, face to the Right and Left outwards; at the same time those in the Flanks face to the Right-about, in 3 Motions; the Drummers and Music face likewise to the Right and Left outwards, except the orderly Drummers.
- March, or the Troop** 43 The Officers stepping off together with the Left-feet, and observing to keep a strait Rank as they march, move up through the Files, in 43 Paces, to their Ground in the Front; the Serjeants march to their Posts in the Rear, and on the Flanks; the Drummers having marched so as to be clear of the Flanks, face together and proceed till they are in a Line with the Foot-rank.
- Halt, or a riam.**
Order your Arms or a Flam. 2 Those who were faced, come to their proper Front.
The Officers order their Arms in 2 Motions, as do the Serjeants.
- 4th Caution. Rear-half-files, take Care to double your Front, or a Ruffle.*
- 60. Rear-half-files to the Left double your Front** 2 The Serjeants of those Half-files, as well as the Serjeants in the Rear, recover their Arms in 2 Motions.
As in in Expl. 28, the Serjeants moving up at the same time, so soon as these last are come to their Ground, they are to order their Halberts, in 2 Motions.
- 61. March** 20
- 62. Left-hand grand Divisions by the Side, Step. Double yr Files to the Right.** 4 The Serjeants and Men of the grand Divisions, who are to double, make 3 Paces backwards, beginning with their Left-feet; and after the 3d Step, they bring back the Right-feet in a Line with their Left, their Right-toe pointing to the Right; the Officers make only 2 Paces, and then bring back the Left-feet; the Officers and Serjeants recover their Arms at the 2 first Paces.
Officers, Serjeants, and Men, step off together with the Left-feet, and bring the Left-heel opposite to the Right-toe, the Left-feet pointing to the Front; the 2d Step is made by moving the Right-feet in a direct Line to the Right, and so on alternately till the Divisions have doubled; the Officers, Serjeants and Men must take Care to raise the same Feet together, that they may not open or close their Files; and without facing to the Right, the last Step must be made with the Right-feet.
